

Opportunity Inc., in partnership with various community organizations, sponsors Share Network Access Points, or "SNAPs", throughout the region to provide additional access to workforce services.

A SHARE Network Access Point is a faith-based or community organization where people can go in their own neighborhoods or communities to look for jobs, assisted by trained individuals who connect them to the regional One-Stop system via computer and direct referrals. Specifically, SNAPs provide core services for self-directed job searches; refer customers to the One-Stop and supportive services as needed; publicize job search services in their communities and offer additional services as extra, in-kind support to job seekers.
